Doi Chaang Coffee is a unique partnership that goes beyond Fair Trade.

We strive to help one Thai village keep their history and their future. As self-sufficient and self-directed coffee producers, the Akha hill tribe of Doi Chaang village in northern Thailand are able to maintain their heritage and cultural values while providing economic stability and growth for their community.

Doi Chaang coffee is 100% certified organic, Arabica and shade-grown. We look forward to continuing to bring awareness to consumers about the quality and unique flavors of Thai coffee, as well as the story of the Growers and their dedication to quality and tradition.
